DIRECT VENT GAS FIREPLACES

B36S DIRECT VENT GAS FIREPLACE

If you're looking for the beauty of a real log fire but not the hassle of storing and maintaining the wood, a gas fireplace may be just for you.

The convenience of gas provides a clean, efficient and smart way to enjoy a fire any time, with a simple flick of a switch.

The B36S direct vent fireplace is the perfect solution for anyone looking to have a striking fire that provides a beautiful ambiance with very little maintenance.

- High definition, hand painted logs as standard with realistic flame pattern
- IntelliFire ignition system saves on gas and operates simply via a wall switch
- Choice of 3 or 4 sided 115mm black surround
- 413mm profile great for smaller spaces
- Balanced flue technology ensures clean and safe indoor air quality, and allows top or rear venting for installation flexibility
- Steady state efficiency rating of 81.3%

 steady state measures how efficiently your fireplace converts fuel to heat once it is warmed up and running.

Minimum frame opening
